

# CHINA ENTREPRENEURS FORUM

## Sustainability Reports Posters star in China

November 1, 2020 - Hangzhou, China

---

**Hallbars is exhibiting 188 Sustainability Reports posters from 14 institutions and 60 corporations, from 33 countries.** Sweden has the largest numbers of posters. China and France are next. See the Vina Concha y Toro poster in Chinese. All the posters were translated to Chinese. As international travel is very restricted, the Hallbars international exhibition is a key focus of the event this year, confirmed the director of the forum Zhang Xiao Ke. She said " We are very grateful for this first exhibition of international Sustainability Reports posters. The quotes of top chairmen and CEO bring sustainability to life. "

The Forum welcomes over 6500 registered professional visitors over the 3 days November 1-3. The Forum is the annual meeting of China private entrepreneurs, including big corporations such as world famous Alibaba, and Wahaha, the drinks industry leader, both with headquarters in Hangzhou. There is also a large number of start-ups presentations. The main sponsor of the event is Moutai, the number one China brand.

Hallbars hopes to promote the publication of more sustainability reports in China, which is already among the top countries in number of reports (and visitors to the [www.hallbars.org](http://www.hallbars.org) website). According to the Hallbars Awards 2020, the best sustainability reports from China are COFCO International, Mengniu, Vitasoy, Alibaba, and the China Society of Entrepreneurs & Ecology.

President Cai Zhang Sheng said "The exhibition of Sustainability Reports posters is the cornerstone of our Hangzhou Entrepreneur Forum this year. All visitors talk about it. We will definitely repeat it again next year, everyone will expect it . This posters exhibition is a major contribution to business culture. »
